Professional Summary

I am an Engineering student pursuing mine under graduation degree in the Computer science branch. I am always ready to learn new things and technologies. I know C/C++ and I have basic understanding of Data Structures & Algorithm. I am also good in Frontend development and have a good knowledge of Backend development also. I have one month internship experience with Block8, in MERN stack technology.

This internship opportunity from your side will help me to learn more new things and boost my technical skills. It will also increase my experience level, that will help me a lot in my career building.
